

LIFE TIME CRASH REPLACEMENT POLICY _TERMS AND CONDITIONS

This helmet has been designed to absorb shock impacts. Following a fall, the helmet might be subject to the partial destruction or breakage of its shell. For this reason should any impact occur, the helmet can no longer be used and must be replaced, even if it does not appear damaged.

LIMAR SRL offers you this policy on Limar helmets against any risk of breakage or damage caused by a fall or collision while riding a bicycle, for all your riding life. During this period, Limar gives you the opportunity to replace the helmet impacted on a bicycle accident with a new one, giving you a 50% discount on the purchase price, accordingly to the price list in force.

You can qualify for the LIMAR life time Crash Replacement policy by filling the online form and receive LIMAR info and latest news.

If you do not register, you will not benefit from the crash replacement program.

In order to get a new replacement helmet, following a bicycle accident, please send an email to info@limar.com quoting your full details as well as email address used for the registration, as well as a photo of the impacted helmet and info on the accident. LIMAR will let you have the contact details of the distributor in charge of the replacement and will allow you to send the damaged helmet to the distributor, who will take care of the replacement with a new helmet. You will receive the new helmet upon payment of the 50% of the purchase price accordingly to the price list in force (with the addition of the shipping costs).

LIMAR SRL deserves the right to decide in relation to the replacement of each returned helmet.

This policy will be valid **FOR ALL YOUR RIDING LIFE!**
